### PRODUCT ADVANTAGES

CRIA + 70 allows rapid weaning thanks to a very good growth rate and early transition to solid food. It is intended for technical farms and ensures both good digestion and batches with homogeneous conformation even in difficult conditions.

The presence of prebiotics helps to fight against pathogenic bacteria and maintain the right balance of intestinal flora

The EMX® essential oils complex preserves the integrity of the intestinal barrier and allows perfect assimilation of nutrients

Essential trace elements for calves's growth. Its natural form allows a better bioavailability (absorption and assimilation)
